## B. Training Issues

### 1. Short description:

The aim of the Professional Development Programme is to train participants in Distance Learning techniques and methodology via ICT / Artificial Intelligence while promoting Inclusion & Diversity through cultural activities in order to respond critically to the demands of our times.

“Artificial Intelligence-eLearning-eCulture” concerns the pedagogical use of Mobile Location-Based Games and AI for teachers, as a means to cultivate the skills of Collaboration, Creativity and Critical Thinking. The pedagogical utilization of the above promotes Inclusion & Diversity in that they cater for all types of learners: visual, auditory, kinesthetic etc.

More specifically, the trainees will become familiar with interactive applications of AI and combined with Land Art, in order to produce learning designs and scenarios in which the learners will be creative and engaged.

During the course, the participants will visit historical and natural monuments of Athens / Agios Nikolaos.

### 2. Key competences:

Artificial Intelligence

Digital Storytelling

Land Art

Mobile Learning

Gamification

### 3. Learning Outcomes

The participants are expected to:

1. Become Familiar with Mobile Location-Based Games
2. Become familiar with Artificial Intelligence Applications
3. Become familiar with the Principles and Methodology of Distance Learning/Mobile Assisted Learning
4. Promote their collaboration and communication skills
5. Create Inclusive Learning Scenarios
6. Extend their ability to use more ICT in and out of the classroom.
7. Promote collaborative creativity and Inclusion through the pedagogical use of ICT as one of the most important tools for teachers, in order to cultivate the skills of Collaboration, Creativity and Critical Thinking.
8. Integrate cultural activities in their teaching

### 4. Methodology and more

The training methodology will be based on pioneering collaborative techniques. Trainees will explore and build their knowledge in groups by using innovational collaborative learning methods.

-Conditions: ICT Basic Skills

-Preparation: Participants are encouraged to bring their own laptops, if possible, to be more flexible during the course. An investigative questionnaire is possible to be sent to the participants

-Learning material: The learning material will be available online in English.

-Evaluation: The trainees will evaluate the programme.

-Certification upon completion: The participants will receive, upon completion, a Certificate of Attendance by the University of Crete/ eLearning Lab, with detailed description of the training content and the duration of the course.

-Follow-up: An online community will be created in order to allow participants to share their experience, best practices etc.

### 5. Target Groups/Audience:

Teachers of all levels of educational and training organizations (pre-school, primary, secondary, vocational, adult), school principals/managers, head teachers, inspectors, counselors, pedagogical advisors, teacher trainers, ICT teachers, learning designers

### 6. Instructors

The trainers are distinguished academics from the University of Crete, the University of Athens, the Hellenic Open University etc., as well as scientific associates of the eLearning Laboratory.

## C. Administration and Financial Issues

### 1. Organization/Host institution/Receiving organization E- Learning Lab - EDIVEA - University of Crete

ORGANISATION's ID: E10025054

The “eLearning Lab” was founded under the name “Laboratory for advanced educational technologies in Lifelong and Distance learning” within the Department of Primary Education at the University of Crete.

It aims to serve the educational and research needs in the fields of Lifelong Learning and eLearning, with emphasis on the pedagogical implementation of advanced learning technologies and social networks to all types and levels of education.

Since its foundation, the “eLearning Lab” has significant contribution to the educational community, consisting of distance learning programs for the professional development of teachers, connecting the local community through Lifelong Education activities and encouraging exchanges of best practices among educators and other entities regarding the pedagogical implementation of ICT.

One of the major contributions of the “eLearning Lab” is the design and implementation of a collaborative project that focuses on the pedagogical exploitation of ICT, and especially of video conferencing and WEB 2.0 applications, under the title [“ODYSSEAS”](#)

The aim of this project is to build up a collaborative learning environment, in order to cultivate creativity and critical thinking skills for elementary school students from Greece and Cyprus. Since 2000, more than 3,000 primary school pupils from Greece and Cyprus have participated in ODYSSEUS project with national and European distinctions.

eLearning Lab Location: University of Crete, eLearning Lab, Department of Primary Education, 74100 Rethymno (Pic 1)
